

Bayan Products

EXCLUSIVE BODY PRODUCTS FROM AROUND THE WORLD

Bayan's UK products are the result of eight years' hard work by Dr Enam Bagedo. The story of how she created it is inherent to the spa and products. Her personal touch goes into each and every product, and this is in part why the Bayan Loutra experience and products are genuinely unique and enjoy a premium positioning.

Our extensive range of exclusive products is presented in beautifully designed bottles

and each contain key ingredients sourced from many parts of the world.

Our products are expensive in comparison to the high street, as the raw materials that are used are the best quality that one can find in the market and they can sometimes only be produced in small quantities. For example, the jasmine oil and jasmine paste come from a one acre field; this will only make 10ml of jasmine oil and less than

8g jasmine paste. Or take our olive oil: the supplying family in Greece are one of the very few families who can produce the best oil available from their natural techniques and age-old methods. This only produces a small amount of oil and, in some years, when the winter is very cold, there will not be any oil produced that year at all, which may mean that Bayan is unable to sell certain products at certain times.

The products are for both men and women, although some might be more suited to women; for example, the Light Black Seed body cream contains a wonderful jasmine fragrance which would be unlikely to suit a man's tastes. The range is primarily targeted at the over-25s.

As I am passionate about environmental causes and sickened by the wastage in today's modern packaging, my boxes are designed to be kept and re-used, not just ripped open and thrown away. It is my wish that people really appreciate good products and savour them for the right reasons.

We want you to feel that you find the truth in Bayan and to really believe in the brand, becoming lifelong subscribers to it as a result.

The prices range from £20.00 for Bayan soap, to £317.00 for Black Seed body oil.

- We accept all major credit cards, cheques and cash
- We can arrange delivery for you anywhere in the UK for a small fee
- We can deliver to your home/business locally, free of charge
- We can gift wrap your purchases for a small fee
- If you want to be discreet then so can we, at no extra fee
